Driveways/parking lots will be plowed from November 2011-April 2012 each time there is 2" or more of accumulation. Driveways will be cleared by 7:00 a.m. when 2" have fallen by 12:00 am. During heavy snow/storm situations, it will take us longer to complete our work. Snowplowing service will be provided once during a 24-hour period. Return trips will be made during storm situations. Approaches will also be checked the night following big storms. The bulk of snow will be cleared from your driveway; however, this does not guarantee a slip free surface. Driveways will be staked with a snowplow marker to identify driveway and prevent sod damage. Markers must remain in throughout the winter.
